

Title: On all pages. Unlogical multiple placement of an unclickable word “Показати” on the “footer” of a website.

Priority: Medium

Severity: S4 Minor

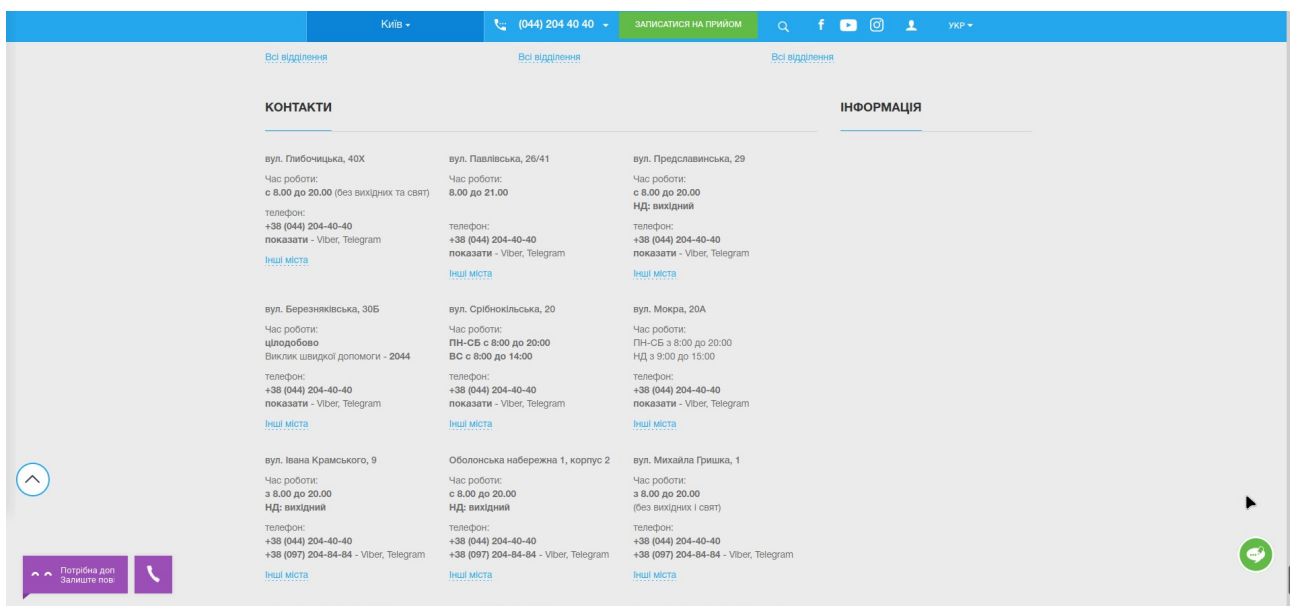

Environment:

Browser Mozilla Firefox 118.0.1 (64-bit)

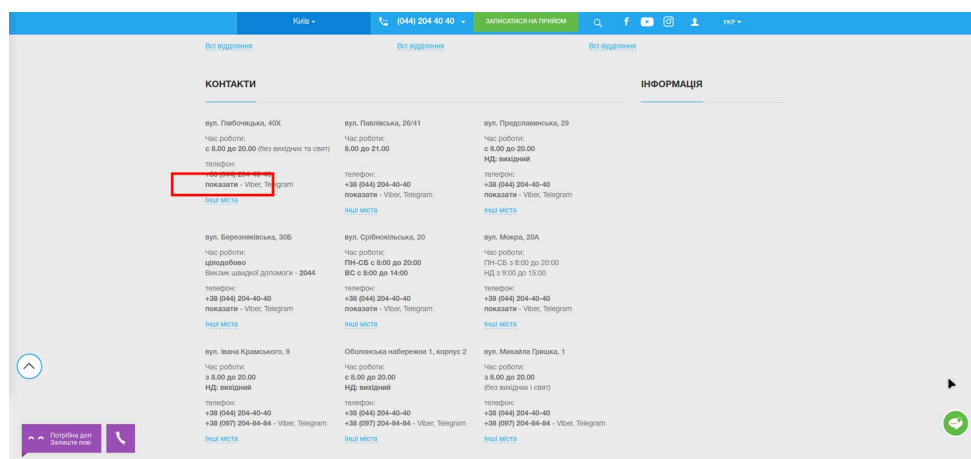

Browser Chromium 117.0.5938.132

Steps to reproduce

1. Open the Main page: <https://oxford-med.com.ua/ua/>
2. Scroll down to the gray “footer” with a list of contact information

3. Click on “показати” in a “вул. Глибочицька, 40Х” section

Actual result

Nothing happened. The word “показати” is unclickable, while a phone number is already displayed. So, it is difficult to understand the reason of placing this word.

Expected result

According to UI-UX, all sections, blocks, and texts must have logic placement. So, the word “показати” or must be deleted, or a telephone must be hided (and clicking on the word “показати” must reveal this phone).
