

**Title:** On all pages. Unlogical behavior of a “phone” section in the header of the website.

**Priority:** Medium

**Severity:** S4 Minor

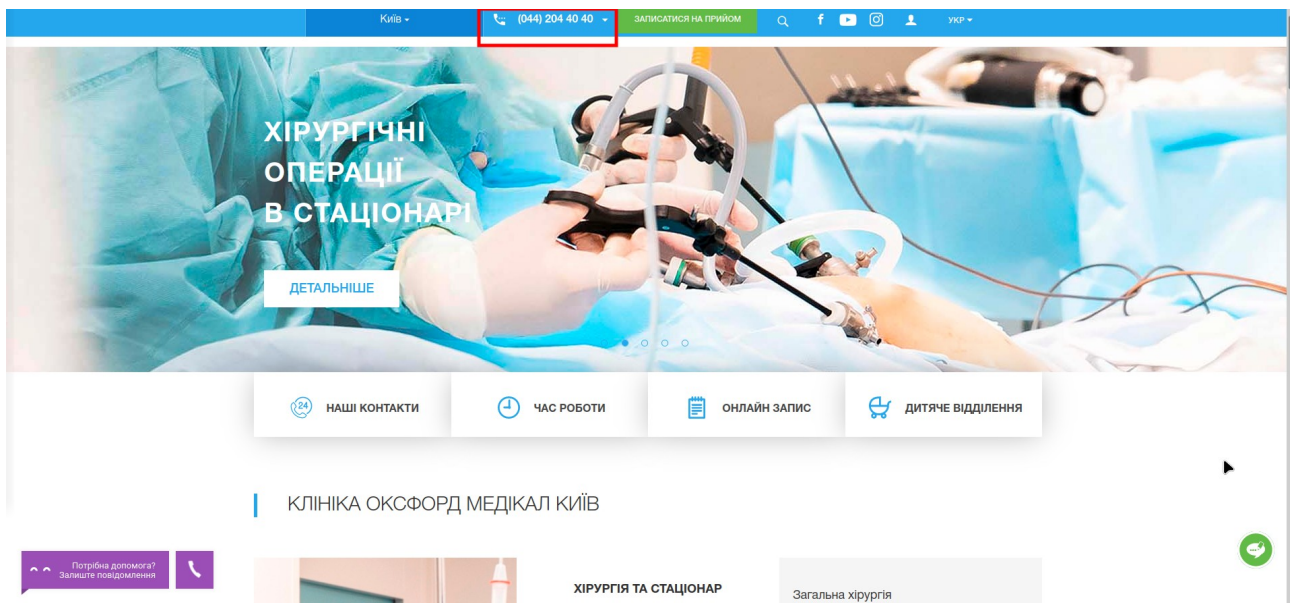

**Environment:**

Browser Mozilla Firefox 118.0.1 (64-bit)

Browser Chromium 117.0.5938.132

**Steps to reproduce**

1. Open the Main page: <https://oxford-med.com.ua/ua/>
2. Hover a mouse over a phone number “(044) 204-40-40” in the header of the website

**Actual result**

We don't see any changes in the background color, or text color, or icon color, or any other change in this section.

**Expected result**

According to the UI-IX, all elements in a header must have the equal predictable behavior. So, it would be good, if after hovering a mouse, background color changed or a phone icon changed somehow.
